

MindMate Research is MindMate's research arm with the aim to provide the world with interesting data findings around the topics Alzheimer's & technology.

## Which countries use technology for Alzheimer's care?\*

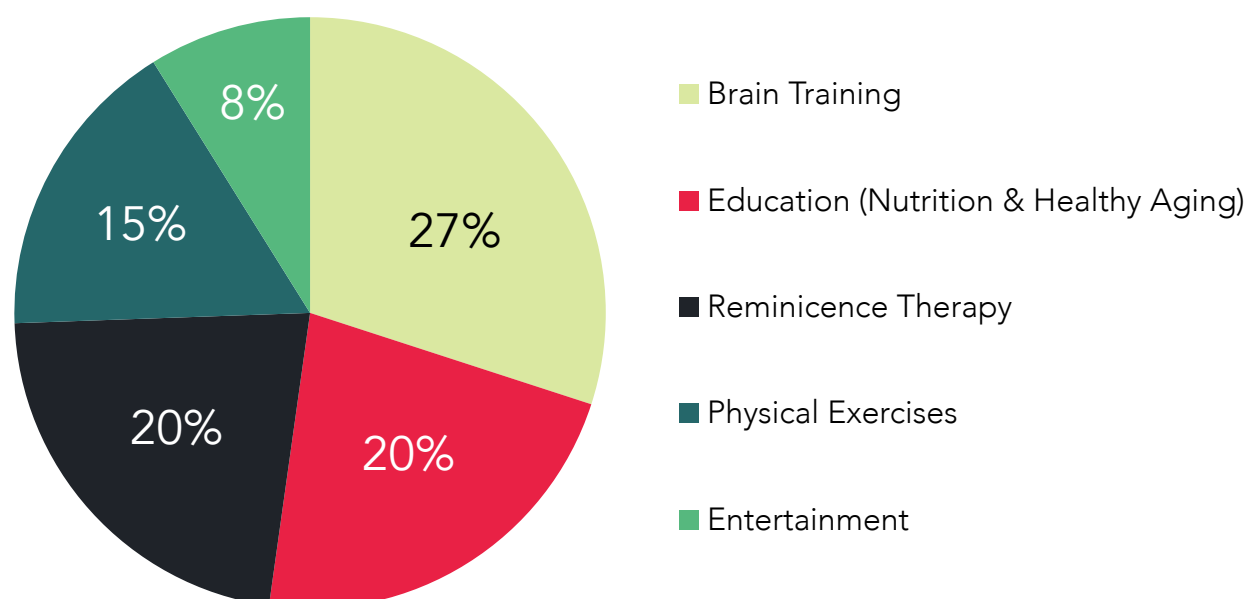

\*Based on MindMate user (June 2016 – September 2016)

## How is this software used?

Purpose of usage

## What is MindMate?

MindMate is world's leading Alzheimer's platform. Available for free.

Our mission: Making people living with Alzheimer's more independent. We give family members greater peace of mind and enable professional carers to provide real person-centered care.
